

A Wave of Hope

Phish

- V1** From out of the chaos a wave appears
In the moonlit confusion
Irons melted, coming Grace, no longer frozen
- V2** The pillow drowns the moans and shallow breaths
As dancing silvery rays change, each wave eyes a star
And the swollen moon hangs over the water
- V3** Reflections guide the way, gold maze mirrors
As the night wheels turn
Shipwrecks sway, steel mast crashes, spin green sky
- Chorus** **Cm** I have grown my wings, I am flying **F**
Eb Ascending now, I am soaring **Bb** **B**
Cm Untied my wrists, and flew away **F**
Eb This too shall pass, this too shall pass **Bb** **B**
- Bridge** **G** We are flying, we are flying over the water **Bb** **Ab**
G We are diving, we are diving into the water **C#**
- Jam** Repeat Chorus
Jam over bridge and chorus
Repeat chorus X2
