

# Hungersite

## Goose

**V1**        **Hope. It's bent like rope. Oh, I'm growing tired**  
**Of hauling on yesterday**  
**Closed. Is that how it goes. Well I might be rusted**  
**But brother, I'm here to stay**

**Chorus**   **Is it time to shed our weapons yet my friend**  
**Is it love we've drawn away in our groundless low**  
**Can we step out of the wreckage yet my friend**  
**Running all against their hungry sight**  
**Hanging on, they've taken all, but we won't lay that down**

**Solo 1**    Over F / Eb / F

**V2**        **Breath. Don't it let. Just a little closer**  
**I know it's now nearing view**  
**There. It's only air. Nothing tethered to the garment**  
**We're climbing through**

***Chorus***

**Jam**       Over F / Eb / F

***Chorus***
