

# Miss You

Phish

- V1**      **F#**                      **F# E B**  
You're smiling at me,                      from your picture frame,  
                 **F# F# E B**  
and I miss you  
                 **F#**                                      **F# E B**  
My life keeps on changing,                      but you stay the same,  
                 **F# F# E B**  
and I miss you  
**F#**                                      **F# E B**  
So many moments,                      that we should have shared,  
                                 **G#m F# E C#**  
I miss you  
                 **B**                      **F#**                      **G#m**                      **B**  
And the days turn to years, and it hasn't stopped yet  
                 **E**                                      **C#m**                      **B B A E**  
The memories we shared, I will never forget  
                                 **B B A E**  
No I will never forget
- V2**      There's a hole in my heart, that'll never be filled, I miss you  
This all should get easier, but it never will, I miss you  
I float through the days, and the long lonely nights, I miss you  
And I hear your footsteps, you're coming down the stairs  
Lost in your laughter, the sun in your hair  
A brief recollection, the light in your eyes,  
I see the reflection, but it passes by  
It passes me by
- Solo**      (solo over bridge chords)  
                 **B B A E**
- V3**      You're smiling at me, from your picture frame, I miss you  
Every morning I wake up, and I whisper your name, I miss you  
You're in faces of people, I see on the street  
You're everywhere (x3)
- Outro**      **F# F# E B (x2)**
