Joy  
Phish

- V1**     **D**  
Joy is over there in her incredible clothes  
          **Gmaj7**  
She has silver silk shimmering down to her toes  
          **D**  
I was doing the best that I can I suppose  
          **Gmaj7**  
But that little girl dancer eventually grows  
          **E       G   A**  
Well she grows
- V2**     You can't imagine all the times that I've tried  
To uncover the source of the tears that you cried  
Let's throw it away and just go for a ride  
And you'd say okay but you'd keep it inside  
And I tried, I tried, I tried, I tried
- Chorus**     **G                                   D                                   A                                   G**  
We want you to be happy, don't live inside the gloom  
          **G                                   D                                   A                                   G**  
We want you to be happy, come step outside your room  
          **G                                   F#m                                   A**  
We want you to be happy, cause this is your song too
- V3**     I never thought I could have it so good,  
You were the song that my soul understood  
But time is a river that flows through the woods  
And it led us to places we both understood  
Would be gone before too long, would be gone before too long
- V4**     When we were young we thought life was a game  
But then somebody leaves you and you're never the same  
All of the places that people belong  
To the puzzle but one of the pieces is gone  
And it's you, it's you, it's you, Joy it's you  
*Chorus*
- V5**     **Em                                   C                                   G**  
In time we'll weather this storm  
          **D                                   A**  
Inside together you'll see the change  
          **C       G       A**  
When the sun shines through  
*Chorus*

# Mountains in the Mist

Phish

- V1      **G**                      **C**                      **G**              **Bb**      **C**  
Several times unconsciously I've stumbled on the path  
**Am**              **G**                      **D**      **Bb** **C** **F**  
And seen a mountain in the mist  
**G**                      **C**                      **G**      **Bb**      **C**  
As rain falls on my shoulders, sun rises in the east  
**Am**              **G**                      **C**      **D**              **G**      **Bb** **Am** **C** **Eb** **Bb**  
I'm worn and bruised, but I am here at least
- V2      I guess I'm just an obstacle a thing to overcome  
If I can sneak around myself again I'll know I've won  
The moment seems to hang and float before me with no end  
til I'm released, awakened beast, I'm on the road again
- Chorus      **Eb**                      **Bb**  
But now I'm soaring far too high  
**Bbm**                      **F**  
A fleck of dust up in the sky where  
**Dm**                      **C**  
tiny clouds go sailing by  
**Bb**                      **C**  
Pull me down today
- V3      Woven in the fairy tales we fabricate each day  
Are little golden strands of truth that glimmer in the light  
The colorful material you hold a certain way  
Can keep us from the cold and help to get us through the night  
*Chorus*
