

# Mountains in the Mist

Phish

V1      Several times unconsciously I've stumbled on the path  
         And seen a mountain in the mist  
         As rain falls on my shoulders, sun rises in the east  
         I'm worn and bruised, but I am here at least

V2      I guess I'm just an obstacle a thing to overcome  
         If I can sneak around myself again I'll know I've won  
         The moment seems to hang and float before me with no end  
         til I'm released, awakened beast, I'm on the road again

Chorus   But now I'm soaring far too high  
         A fleck of dust up in the sky where  
         tiny clouds go sailing by  
         Pull me down today

V3      Woven in the fairy tales we fabricate each day  
         Are little golden strands of truth that glimmer in the light  
         The colorful material you hold a certain way  
         Can keep us from the cold and help to get us through the night  
*Chorus*
