

# A Wave of Hope

Phish

- V1** From out of the chaos a wave appears  
In the moonlit confusion  
Irons melted, coming Grace, no longer frozen
- V2** The pillow drowns the moans and shallow breaths  
As dancing silvery rays change, each wave eyes a star  
And the swollen moon hangs over the water
- V3** Reflections guide the way, gold maze mirrors  
As the night wheels turn  
Shipwrecks sway, steel mast crashes, spin green sky
- Chorus** I have grown my wings, I am flying  
Ascending now, I am soaring  
Untied my wrists, and flew away  
This too shall pass, this too shall pass
- Bridge** We are flying, we are flying over the water  
We are diving, we are diving into the water
- Jam** Repeat Chorus  
Jam over bridge and chorus  
Repeat chorus X2
