and I miss you

So many moments,              that we should have shared,

I miss you

And the days turn to years, and it hasn't stopped yet

The memories we shared, I will never forget

**V2**      There's a hole in my heart, that'll never be filled, I miss you  
This all should get easier, but it never will, I miss you  
I float through the days, and the long lonely nights, I miss you  
            B                      F#                      G#m                      B  
And I hear your footsteps, you're coming down the stairs  
E                              C#m                              E  
Lost in your laughter, the sun in your hair  
B                              F#      B  
A brief recollection, the light in your eyes,  
E                              C#m                      B      B A E  
I see the reflection, but it passes by  
                    B A E  
It passes me by
