

A Wave of Hope

Phish

- V1 From out of the chaos a wave appears
In the moonlit confusion
Irons melted, coming Grace, no longer frozen
- V2 The pillow drowns the moans and shallow breaths
As dancing silvery rays change, each wave eyes a star
And the swollen moon hangs over the water
- V3 Reflections guide the way, gold maze mirrors
As the night wheels turn
Shipwrecks sway, steel mast crashes, spin green sky

Chorus **Cm** **F**
I have grown my wings, I am flying
Eb **Bb** **B**
Ascending now, I am soaring
Cm **F**
Untied my wrists, and flew away
Eb **Bb** **B**
This too shall pass, this too shall pass

Bridge **G** **Bb** **Ab**
We are flying, we are flying over the water
G **C#**
We are diving, we are diving into the water

Jam Repeat Chorus
Jam over bridge and chorus
Repeat chorus X2
