

# A Wave of Hope

Phish

- V1 From out of the chaos a wave appears  
In the moonlit confusion  
Irons melted, coming Grace, no longer frozen
- V2 The pillow drowns the moans and shallow breaths  
As dancing silvery rays change, each wave eyes a star  
And the swollen moon hangs over the water
- V3 Reflections guide the way, gold maze mirrors  
As the night wheels turn  
Shipwrecks sway, steel mast crashes, spin green sky

Chorus **Cm** **F**  
I have grown my wings, I am flying  
**Eb** **Bb** **B**  
Ascending now, I am soaring  
**Cm** **F**  
Untied my wrists, and flew away  
**Eb** **Bb** **B**  
This too shall pass, this too shall pass

Bridge **G** **Bb** **Ab**  
We are flying, we are flying over the water  
**G** **C#**  
We are diving, we are diving into the water

Jam Repeat Chorus  
Jam over bridge and chorus  
Repeat chorus X2
