

# More Phish

**V1**

**G** **F**  
Life in slow motion, feet are in the clay

**C**  
I'm going nowhere, been standing here all day

**G** **F**  
I had a notion, there was something more to do

**C**  
As I watched the water, from the banks of the river it swelled and grew

**G** **D**  
And I tilt to the left, lean to the right, tilt to the left and lean to the right

**F** **C**  
Walked on coal and slept on glass, amid swords of sound and daggers of light

**G** **D**  
And my heart is screaming,

**F** **C**  
cause half of what I say is lies, and it takes so much to keep up this disguise

**G F C**  
It takes so much to keep up this disguise

**V2**

**G** **D**  
I see a doorway in the haze and I'm trying to get to it

**F** **C**  
The stars are peepholes in a wall but we can walk through it

**G** **D**  
The memory is still so real, the memory's still so real

**F** **C**  
I guess it's never really over even when it's over

**Chorus**

**G** **F**  
But I'm vibrating with love and light, pulsating with love and light

**C**  
in a world gone mad, a world gone mad, there must be something more than this

**G** **F**  
I'm vibrating with love and light, pulsating with love and light

**C**  
in a world gone mad, a world gone mad, there must be something more than this

**V3**

**G** **D**  
The trumpet call is sounding, the trees are bending low

**F** **C**  
There's a great fire in the distance, there must be something more than this

**G** **D**  
And our shadows will all be dancing, with red dust on our clothes

**F** **C**  
And we'll leave by tornado, elbows in the clouds and feet in the sky

Chorus

V4                    G                    D                    F                    C
