2001

Deodato / Phish

Fanfare	C Ab	C Bb	C C	C C	
Groove	Cm7 Cm7	Cm7 Cm6 Cm7 Cm6	Cm7 Cm7	Cm7 Cm6 Cm7 Cm6	
Solo	Cm7	Cm7	Cm7	Cm7	

Notes Eumir Deodato Arrangement: Based on Strauss's fanfare, transformed into a classic C minor jazz-funk groove popularized further in jam band settings.

Fanfare Opening: Play the iconic three-note rising motif (C - G - C) over a sustained C major chord before dropping into the dramatic Ab to Bb resolving step back to C.

Groove Section: The underlying vamp relies on a C Dorian field. Alternate between Cm7 and Cm6 (or Cm9) to keep the rhythm guitar line syncopated and moving.

Soloing: Stick primarily to C Dorian and C Minor Pentatonic scale choices over the main funk vamp. Keep strumming tight and focused on the top four strings.

After Midnight

Jerry Garcia Band

Intro	C	Eb	F	C	C	Eb	F	C	
	C	Eb	F	C	C	Eb	F	C	
Verse	C	Eb	F	C	C	Eb	F	C	
	C	Eb	F	C	C	Eb	F	C	
Chorus	G7		F7		C	Eb	F	C	
	G7		F7		C	Eb	F	C	
Solo	C	Eb	F	C	C	Eb	F	C	
	C	Eb	F	C	C	Eb	F	C	

Notes JGB Arrangement: Transformed J.J. Cale's laid-back original (and Eric Clapton's hit) into an upbeat, high-energy reggae-funk jam featured on 'Cats Under the Stars'.

Main Riff Movement: Built around the quick-passing 2-bar loop of C - Eb - F - C. The Eb to F movement creates the signature bouncing chromatic jump.

Reggae Skank Strumming: Accent the offbeats (and 'and' of every beat) with tight, short upstrokes on top-three string triad voicings.

Solo Section: Often extended for long, fluid improvs. Jerry typically navigates the changes using C Major Pentatonic and C Mixolydian with fast chromatic lead-ins.

Ain't No Sunshine

Bill Withers

Intro	Am	Em G	Am	Am	
Verse	Am	Em G	Am	Am	
	Am	Em G	Am	Am	
	Em	Dm	Am	Em G	
	Am	Am			
Chorus	Am	Am	Am	Am	
Solo	Am	Em G	Am	Am	
	Em	Dm	Am	Em G	
	Am	Am			

Notes Soul-Blues Classic: Built around a succinct 16-bar minor blues structure in A minor without a bass line on the original tracking session.

Rhythm Strumming: Accent the thumb-picked bass note on beat 1, followed by tight fingerpicked or light-strummed triads on the higher strings.

The "I Know" Breakdown: The repeating chorus section drops down to a percussive, vocal-heavy vamp over a steady A minor rhythm frame.

Turnaround: The shift down through Em to Dm provides the main harmonic tension before resolving back to the main Am - Em - G - Am loop.

All Blues

Miles Davis

Intro	G7	G7	G7	G7	
Head	G7	G7	G7	G7	
	C7	C7	G7	G7	
	D7alt	Eb7alt D7alt	G7	G7	
Solo	G7	G7	G7	G7	
	C7	C7	G7	G7	
	D7alt	Eb7alt D7alt	G7	G7	

Notes 6/8 Wynton Kelly Pulse: Built around a famous 6/8 (or 3/4) modal jazz-blues ostinato in G Major/G Mixolydian with a distinct 6th-to-m7th vamp movement.

Harmonic Shift: The IV chord (C7) maintains the G tremolo/vamp feel underneath, while the turnaround uses sharp altered chromatic steps (D7alt to Eb7alt back to D7alt).

Modal Improvisation: Soloists typically stick to G Mixolydian over the G7, C Mixolydian over C7, and altered scale choices over the D7alt / Eb7alt turnaround.

Comping Style: Keep rhythm comping sparse, spacey, and focused on smooth voice leading rather than heavy strumming.

Bubble House

Medeski Martin and Wood

Intro	Fm7	Fm7	Fm7	Fm7	
Theme	Fm7 Bb7	Fm7 Bb7	Fm7 Fm7	Fm7 Fm7	
Break	Db7	C7alt	Fm7	Fm7	
Solo	Fm7	Fm7	Fm7	Fm7	

Notes **Acid Jazz Groove:** Anchored by Chris Wood's hypnotic, repeating bassline in F Dorian / F minor blues. Keep the tempo steady and deep in the pocket.

Theme Structure: Operates as an extended, blues-influenced funk vamp. The shift to Bb7 provides a classic IV-chord color before cycling back to the root Fm7 groove.

Turnaround Stabs: The break uses sharp dominant chromaticism on Db7 and C7alt to create maximum tension before releasing back into the main bass hook.

Organ / Guitar Voicings: Focus on sparse, percussive stabs on top strings. Extended voicings like Fm9, Bb13, and C7#9 work best to capture the organ trio vibe.

Chameleon

Herbie Hancock

Head	Bbm7 Bbm7	Eb7 Eb7	Bbm7 Bbm7	Eb7 Eb7	
Solo	Bbm9 Bbm9	Db7sus4 Db7sus4	Bbm9 Bbm9	Db7sus4 Db7sus4	

Notes Herbie Hancock's funk-fusion classic is anchored by a modal two-chord groove in Bb minor / Bb Dorian. The main groove alternates between Bbm7 (or Bbm9) and Eb7 (or Eb13). During the extended keyboard solos, the second chord frequently shifts to a suspended Db7sus4 (often voiced as Bmaj7/Db) to give Herbie that iconic open, modal color.

Voicing Tip: To get the true Head Hunters sound on the solo section, try playing Db7sus4 as a Bmaj7 triad with a Db in the bass (Bmaj7/Db).

Soloing: Improvise using Bb Dorian or Bb Minor Blues across both sections.

Cissy Strut

The Meters

Head	C7	C7	C7	C7	
	C7	C7	C7	C7	
Bridge	Ab7 G7	C7	Ab7 G7	C7	
Solo	C7	C7	C7	C7	

Notes New Orleans Funk: Built on Leo Nocentelli's classic syncopated guitar riff and Zigaboo Modeliste's iconic second-line drum groove in C Dorian / C Mixolydian.

Head Riff: The main theme relies on single-note guitar and organ unisons rather than heavy strumming. Keep the right-hand feel tight and heavily syncopated.

Bridge Stabs: The bridge section features sharp chromatic dominant stabs on Ab7 and G7 that resolve cleanly back into the main C7 groove.

Rhythm Pocket: Use muted 16th-note scratch fill-ins between line phrases and favor top-string shell voicings for any rhythm chord stabs.

Fly Like An Eagle

Steve Miller Band

Intro | Am7 D7 | Am7 D7 | Am7 D7 | Am7 D7 |

Main | Am7 D7 | Am7 D7 | Am7 D7 | Am7 D7 |
| Am7 D7 | Am7 D7 | Am7 D7 | Am7 D7 |

Hook | Fmaj7 | C | Am7 D7 | Am7 D7 |

Notes Dorian Groove: The main body of the song is anchored by a smooth two-chord vamp (Am7 to D7) establishing an A Dorian modal feel.

Hook Breakdown: The "Time keeps on slippin'" line shifts out of the vamp to a maj7 color with Fmaj7 resolving to C before cycling right back to Am7.

Space and Texture: The guitar part relies on clean, spacey strumming with heavy delay or phaser effects to complement the organ synth sweeps.

Get Down Tonight

KC and the Sunshine Band

Intro	F7		F7		F7		F7		
	F7	Bb7	F7	Bb7	F7	Bb7	F7	Bb7	
Verse	F7		Bb7		F7		Bb7		
	F7		Bb7		F7		Bb7		
Chorus	F7		Bb7		F7		Bb7		
	F7		Bb7		F7		Bb7		
Solo	F7		F7		F7		F7		

Notes Disco-Funk Classic: Built on standard 7th chord structures with a continuous driving 16th-note rhythm pattern in F Mixolydian.

Iconic Speed-Up Intro Guitar Riff: Guitarist Jerome Smith recorded the opening speed-picked solo at half-speed on reel-to-reel tape and sped it up an octave for the final mix.

Rhythm Guitar: Play light, single-note funk scratches and tight 16th-note vamps on F9 and Bb9 extended voicings using upper strings only.

Horn and Synth Lines: Horns supply heavy syncopated stabs on the beat while the bass maintains a classic four-on-the-floor disco octave pattern.

Hey Pancho

Young-Holt Unlimited

Intro	F7	F7	F7	F7	
Head	F7	F7	F7	F7	
	Bb7	Bb7	F7	F7	
	C7	Bb7	F7	C7	
Vamp	F7	F7	F7	F7	

Notes Soul Jazz Groove: Driven by a mid-tempo, boogaloo-style soul jazz feel. The underlying harmonic structure is a standard 12-bar blues in F.

Rhythm Section: Focus heavily on the syncopated bassline and snappy snare backbeat. Guitar and piano should keep chord stabs syncopated on the offbeats.

Voicings: Use punchy 9th or 13th dominant voicings (F9, Bb9, C9) to dial in that authentic late-'60s Chicago soul sound.

Vamp & Solos: Solo sections blow open over the 12-bar frame or stay locked on a static F7 vamp depending on live arrangement preferences.

Hit The Road Jack

Ray Charles

Intro		Am	G		F	E7		Am	G		F	E7	
Verse		Am	G		F	E7		Am	G		F	E7	
		Am	G		F	E7		Am	G		F	E7	
Chorus		Am	G		F	E7		Am	G		F	E7	
		Am	G		F	E7		Am	G		F	E7	
Solo		Am	G		F	E7		Am	G		F	E7	
		Am	G		F	E7		Am	G		F	E7	

Notes Andalusian Cadence: Driven entirely by a classic 2-bar descending minor walkdown (i - VII - VI - V7) looping in A minor throughout the song.

Call and Response: The structure features Ray Charles' lead vocals answering tight, syncopated backing vocals from the Raelettes.

Rhythm Comping: Emphasize the driving quarter-note walkdown in the bass/keys. Guitarists can accent the offbeats with short, sharp stabs on upper triads.

Turnaround Tension: The landing on E7 provides the dominant push back to Am, often incorporating an G# leading tone in lead solos.

I Got You (I Feel Good)

James Brown

Intro	D7	D7	D7	D7	
Verse	D7	D7	D7	D7	
	G7	G7	D7	D7	
	A7	G7	D7	D7	
Bridge	G7	G7	D7	D7	
	G7	G7	A7	A7	
Solo	D7	D7	D7	D7	
	G7	G7	D7	D7	
	A7	G7	D7	D7	

Notes Funk Blueprint: Built on a classic 12-bar dominant blues structure in D Mixolydian / D Pentatonic featuring Maceo Parker's iconic horn stabs.

Rhythm Comping: Play short, percussive 9th-chord stabs (D9, G9, A9) on the offbeats, keeping the fretting hand muting tight and bouncy.

The Stop: The signature pauses on beat 1 during the verse require total silence across the band before James Brown's vocal pickup brings the groove back.

Horn Accents: The brass section provides sharp, syncopated counter-punches at the end of vocal phrases throughout the 12-bar cycle.

Iron Man

Black Sabbath

Intro	B5	B5	B5	B5	
Riff	B5 D5	D5 E5 E5	G5 F#5 G5	F#5 G5 E5 E5	
Verse	B5 D5	D5 E5 E5	G5 F#5 G5	F#5 G5 E5 E5	
	B5 D5	D5 E5 E5	G5 F#5 G5	F#5 G5 E5 E5	
Chorus	E5	G5	E5	G5	
Solo	B5	B5	B5	B5	

Notes Heavy Metal Landmark: Anchored by Tony Iommi's iconic power-chord riff in B minor / B Pentatonic, matched in unison by the bass line.

Riff Execution: The signature ornament in the second bar involves fast hammer-on and pull-off grace-note slides between G5, F#5, and G5 before resolving back down to E5.

Verse Feel: The vocals mirror the main heavy guitar riff directly throughout the verse sections.

Solo Section: The solo speeds up to an uptempo, driving rock beat over a static B5 power chord vamp using B minor pentatonic and blues scales.

Low Rider

War

Intro	G7	C7 G7	G7	C7 G7	
Main	G7	C7 G7	G7	C7 G7	
	G7	C7 G7	G7	C7 G7	
Solo	G7	C7 G7	G7	C7 G7	

Notes Signature Riff: Built around the iconic repeating bass and guitar line in G Pentatonic / G Mixolydian, punctuated by the cowbell backbeat.

Chord Syncopation: The change to C7 hits as a fast upbeat stab on the 'and' of beat 2, resolving immediately back to G7 on beat 3.

Rhythm Guitar: Play light, muted 16th-note chucks with short, staccato G9 and C9 voicings on the top strings to leave room for the bassline.

Arrangement: The entire track loops this 2-bar groove framework for the verses, harmonica solos, and sax breakdown.

Martian Monster

Phish

Intro	Em7	Em7	Em7	Em7	
Theme	Em7	Em7	Em7	Em7	
	Em7	Em7	Em7	Em7	
Break	Em7	Em7	Em7	Em7	
Solo	Em7	Em7	Em7	Em7	

Notes Sci-Fi Funk Jam: Debuted as part of the Chilling, Thrilling Sounds of the Haunted House Halloween set in 2014, built around vintage Disney sound effects.

Heavy Funk Groove: Centered entirely on a driving, single-chord E minor (Em7 / E Dorian) funk-rock vamp.

Trey's Guitar Motif: Features a fast, syncopated single-note line bouncing off the open low E string, mixed with aggressive envelope-filter (auto-wah) stabs on Em9 or Em7 shell voicings.

Trip to Your Savior: The jam space often opens up into wide-open group improvisation before locking back into the heavy "Your trip is short" vocal sample cues.

More Mess On My Thing

The Poets of Rhythm

Intro	Dm7	Dm7 C/D	Dm7	Dm7 C/D	
	Dm7	Dm7 C/D	Dm7	Dm7 C/D	
Horn Break	F9	G9	Dm7	Dm7 C/D	
	F9	G9	Dm7	Dm7 C/D	
Solo	Dm7	Dm7	Dm7	Dm7	

Notes **Pocket over Chords:** The track is built on a tight, deep-pocket 16th-note funk groove in D Dorian. Keep chord embellishments light and percussive—staccato stabs work far better than sustained strumming.

Main Vamp: The rhythm section rides the Dm7 statically, using a subtle slide or passing step down to C/D (or C7/D) on beat 4 to create the classic '70s-style raw funk tension.

Horn Break: When the horns hit the turnaround, switch to punchy 9th chord voicings (F9 to G9) on the upbeats before resolving directly back to the root Dm7 groove.

Guitar Voicings: Favor top-4-string triad and 7th shell voicings to stay out of the bass and organ register.

Pecan Pie

Jeff Tweedy

Verse	G		C		G		C		
	G		C		G		C		
Chorus	C	C/F#	G	D	C	C/F#	G	D	
	C	C/F#	G	D	C	C/F#	G	D	

Notes Golden Smog Side Project: Written and performed by Jeff Tweedy on the 1995 Golden Smog record "Down by the Old Mainstream."

Verse Bass Run: The movement between G and C typically uses an G to A to B single-note walk-up on the low E and A strings leading directly into the C open chord.

Chorus Voicing: The C/F# voicing (200010 or 2x2010) adds the signature alt-country chromatic bass shift as the progression moves toward the G to D resolution.

Acoustic Strumming: Keep the strumming loose and driving with an upbeat, folky country-rock feel throughout.

Play That Funky Music

Wild Cherry

Intro	E7	E7	E7	E7	
Verse	E7 E7	E7 E7	E7 E7	E7 E7	
Chorus	A7 B7	A7 A7	E7 E7	E7 E7	
Solo	E7	E7	E7	E7	

Notes 70s Funk Rock Anthem: Built around a driving, high-energy 16th-note rhythm groove in E Mixolydian / E Blues.

Rhythm Guitar: Keep the right hand locked into a continuous 16th-note scratch pattern. Use tight, percussive E9 shell voicings on the top strings, emphasizing the upbeat stabs.

Chorus Dynamics: The chorus shifts from the static E7 funk vamp into a classic blues-rock turnaround moving through A7 and B7 before dropping back into the root.

Lead & Horns: Crisp trumpet and sax lines double the vocal melodies and punctuate the breaks between the verse lines.

Shake 'Em On Down

Bukka White / North Mississippi Allstars

Intro	E7	E7	E7	E7	
Verse	E7	E7	E7	E7	
	A7	A7	E7	E7	
	B7	A7	E7	E7	
Solo	E7	E7	E7	E7	
	A7	A7	E7	E7	
	B7	A7	E7	E7	

Notes Country Blues Staple: Originated by Bukka White in 1937, covered widely by Fred McDowell, RL Burnside, Led Zeppelin ("Hats Off to (Roy) Harper"), and North Mississippi Allstars.

Hill Country Driving Groove: Often played in Open E or Open D tuning with a slide, driven by a relentless, hypnotically repetitive thumb-bass rhythm on the low strings.

12-Bar Form Adaptability: While traditionally performed as a loose 12-bar blues, Hill Country arrangements often stay parked on a heavy single-chord E7 vamp for long stretches before hitting the IV (A7) and V (B7) turnarounds.

Slide & Percussive Accents: Accent the high-string slide snaps on the offbeats and keep the low E string thump steady to lock in with the drum groove.

So What

Miles Davis

Head A	Dm7 Dm7 Dm7 Dm7	Dm7 Dm7 Dm7 Dm7	Dm7 Dm7 Dm7 Dm7	Dm7 Dm7 Dm7 Dm7	
Head B	Ebm7 Ebm7	Ebm7 Ebm7	Ebm7 Ebm7	Ebm7 Ebm7	
Head C	Dm7 Dm7	Dm7 Dm7	Dm7 Dm7	Dm7 Dm7	
Solo	Dm7 Dm7 Dm7 Dm7 Ebm7 Ebm7 Dm7 Dm7	Dm7 Dm7 Dm7 Dm7 Ebm7 Ebm7 Dm7 Dm7	Dm7 Dm7 Dm7 Dm7 Ebm7 Ebm7 Dm7 Dm7	Dm7 Dm7 Dm7 Dm7 Ebm7 Ebm7 Dm7 Dm7	

Notes Modal Jazz Benchmark: The opening track of 1959's 'Kind of Blue', establishing modal jazz frameworks based on entire scale modes rather than complex chord changes.

Form: 32-bar AABA structure (16 bars Dm7, 8 bars Ebm7, 8 bars Dm7).

"So What" Chords: Bill Evans' famous "So What" chord voicings consist of three fourth intervals topped by a major third.

- For Dm7: Em7 (x7778x) resolving down to Dm7 (x5556x) or Em11 to Dm11.
- For Ebm7: Shift the exact same visual shape up one half-step (Fm7 to Ebm7).

Call and Response Theme: Paul Chambers' upright bass plays the lead "call" line, answered by the sharp two-chord piano/horn stab on the "So What" response.

Improvisation: D Dorian over the A sections; Eb Dorian over the B section.

Spirit of the Red Horse

Ling Yun

Intro	Am	Em	F	C	
	Am	Em	F G	Am G	
Verse	Am	Em	F	C	
	Dm	Am	F	E7	
Chorus	F	G	C	Am	
	Dm	G	C	E7	
	F	G	Em	Am	
	Dm	Em	Am	Am	

Notes Structure: Folk-rock inspired structure driving a strong pentatonic melodic line in A minor.

Rhythm: Steady 4/4 driving rhythm. Keep acoustic strumming or picking crisp to complement the atmospheric synth and traditional melodic hooks.

Harmonic Flow: The chorus relies on a classic step-wise pop progression (F - G - C - Am), with E7 serving as the secondary dominant pulling back to Am or F.

Spy Kiss

Medeski Martin and Wood

Intro	Cm	Cm	Cm	Cm	
Theme	Cm Fm	Cm G7	Cm Fm	Cm G7	
	Cm Fm	Cm G7	Cm Fm	Cm G7	
Bridge	Ab7 G7	Cm	Ab7 G7	Cm	
	Ab7 G7	Cm Fm	Ab7	G7	
Solo	Cm	Cm	Cm	Cm	

Notes Spy Aesthetic: The track relies on a mid-tempo, chromatic noir groove in C minor. Keep the accompaniment dark, sparse, and rhythmic.

Theme Movement: The main head moves between the root Cm line and rapid stabs on Fm and G7 (often voiced as G7alt or G7#9) to capture the classic cinematic spy theme tension.

Bridge Tension: The bridge section builds momentum using a chromatic dominant walk-down from Ab7 to G7 before resolving back to the root Cm groove.

Solos and Vamp: The open solo sections bounce over a modal C minor / C Dorian vamp. Use minor blues or Dorian scale choices for improvisation.

Superstition

Stevie Wonder

Intro	Ebm7	Ebm7	Ebm7	Ebm7	
Verse	Ebm7 Ebm7	Ebm7 Ebm7	Ebm7 Ebm7	Ebm7 Ebm7	
Chorus	Bb7 (#9) Bb7 (#9)	Cb7 (B7) Cb7 (B7)	Bb7 (#9) Ebm7	Cb7 (B7) Ebm7	
Solo	Ebm7	Ebm7	Ebm7	Ebm7	

Notes Hohner Clavinet D6 Climax: Built around multiple multi-tracked clavinet parts panning across the mix in Eb Dorian / Eb Pentatonic.

Tuning & Key: Originally recorded on keyboard tuned to Eb minor. Guitarists frequently tune down a half-step to Eb standard to play full open-string percussive riffs, or stay in standard and use 6th-fret Ebm9/Ebm7 shell shapes.

Chorus Tension: The chorus steps out of the static Eb minor funk vamp with explosive brass stabs moving between Bb7#9 and Cb7 (often played as B7 for ease).

Rhythm Function: Maintain a razor-sharp, percussive 16th-note scratch pattern. Mute aggressively with the fretting hand to replicate the snappy key-release decay of the Clavinet.

The Way It Is

Bruce Hornsby and the Range

Intro	Am7 C	G F	Am7 C	G F	
	Am7 C	G F	Am7 C	G F	
Verse	Am7 C	G F	Am7 C	G F	
	Am7 C	G F	Am7 C	G F	
Chorus	G F	C	G F	C	
	Am7 C	G F	Am7 C	G F	
Solo	Am7 C	G F	Am7 C	G F	
	Am7 C	G F	Am7 C	G F	

Notes 80s Pop Landmark: Features Bruce Hornsby's iconic, two-handed, syncopated piano riff in G Major / A Dorian.

Main Loop: The core verse progression walks down through Am7 - C - G - F, utilizing the flat-VII (F) chord for a modal pop feel.

Chorus Lift: The chorus opens up by leading directly with the G - F - C cadence before returning to the familiar verse walkdown loop.

Improvisation: Piano and guitar solos freely navigate A Dorian and G Major pentatonic scales over the steady 2-bar progression frame.

Third Stone From The Sun

Jimi Hendrix

Intro	E7#9	E7#9	E7#9	E7#9	
Theme	E7#9	E7#9	E7#9	E7#9	
	A7	A7	E7#9	E7#9	
	B7	A7	E7#9	E7#9	
Bridge	E	G	A	C D	
	E	G	A	C D	
Solo	E7#9	E7#9	E7#9	E7#9	

Notes Psychedelic Surf Jazz: Blends classic jazz-fusion harmony with heavy, spacey surf-rock rhythms in E Mixolydian and E Blues.

Hendrix Chord: The main theme relies heavily on the signature E7#9 voicing (77678x) coupled with fluid thumb-fretted basslines and octave lead fills.

Bridge Riff: The bridge shifts from the heavy blues-jazz feel into a driving surf-rock riff walking up through E, G, A, C, and D major chords.

Texture and Whammy: Use liberal whammy bar dips, tape-delay feedback, and unison string bends during the open solo and breakdown sections.

This Is How We Do It

Montell Jordan

Intro		Fm7	Bbm7		Ab	Eb		Fm7	Bbm7		Ab	Eb	
Verse		Fm7	Bbm7		Ab	Eb		Fm7	Bbm7		Ab	Eb	
		Fm7	Bbm7		Ab	Eb		Fm7	Bbm7		Ab	Eb	
Chorus		Fm7	Bbm7		Ab	Eb		Fm7	Bbm7		Ab	Eb	
		Fm7	Bbm7		Ab	Eb		Fm7	Bbm7		Ab	Eb	

Notes 90s New Jack Swing/Hip-Hop: Anchored by a smooth 4-bar loop in F minor, sampling Slick Rick's "Children's Story" rhythm track.

Core Progression: Loops Fm7 - Bbm7 - Ab - Eb consistently throughout the entire track, driving the vocal hooks and party breakdown.

Guitar/Keys Comping: Lay back in the pocket with short, muted 16th-note stabs. Accent beat 2 and 4 to keep the bounce tight with the kick and snare.

Bass Groove: The synth bass drives the motion with a heavy step down from Ab to Eb at the end of each two-bar cycle.

Use Me

Bill Withers

Intro		Em7	A7		Em7	A7		Em7	A7		Em7	A7	
Verse		Em7	A7		Em7	A7		Em7	A7		Em7	A7	
		Em7	A7		Em7	A7		Em7	A7		Em7	A7	
Chorus		B7			C7			Em7	A7		Em7	A7	

Notes Main Groove: The core driver is a syncopated two-bar funk vamp in E Dorian, switching rapidly between Em7 and A7 (often played with an E minor clavinet riff overlay).

Clavinet Riff: Focus heavily on the rhythmic pocket. The guitar supports the keyboard pattern with tight, staccato 16th-note chucks and muted string scrapes.

Chorus Turnaround: The tension builds on the chromatic dominant step-up from B7 to C7 before dropping back into the main Em7 to A7 groove.

Wake Me Up

Avicii

Intro	Bm	G	D	Bm	G	D	A	
Verse	Bm	G	D	Bm	G	D	A	
	Bm	G	D	Bm	G	D	A	
Chorus	Bm	G	D	Bm	G	D	A	
	Bm	G	D	Bm	G	D		
Drop	Bm	G	D	Bm	G	D	A	
	Bm	G	D	Bm	G	D	A	

Notes Acoustic Electronic Fusion: Combines country-folk acoustic strumming with driving EDM pop production in B minor / D major.

Core Progression: The entire song is built around the 4-bar cycle of Bm - G - D with an A major passing chord landing on the final beat of beat 4 leading back to Bm.

Acoustic Strumming: Use continuous, driving 16th-note folk-style strumming on an acoustic guitar during the verse and chorus sections.

Electronic Drop: During the instrumental drop, the synth lead takes over the melody while the rhythm section locks into a four-on-the-floor kick beat.

Walking On Sunset

John Mayall

Intro	Ab7	Ab7	Ab7	Ab7	
Verse	Ab7	Ab7	Ab7	Ab7	
	Db7	Db7	Ab7	Ab7	
	Eb7	Db7	Ab7	Eb7	
Solo	Ab7	Ab7	Ab7	Ab7	
	Db7	Db7	Ab7	Ab7	
	Eb7	Db7	Ab7	Eb7	

Notes Laurel Canyon Blues: Opening track from 1968's Blues From Laurel Canyon, driven by Mick Taylor's classic guitar work and Mayall's harp and piano.

12-Bar Form: The tune follows a standard 12-bar shuffle blues layout in Ab major.

Harmonica and Piano Interplay: The driving shuffle relies on the steady rhythmic bounce between the piano left hand and harp accents.

Guitar Tone: Mick Taylor uses clean, biting Ab dominant 7th voicings and pentatonic lead fills off the top-string shapes.

Whole Lotta Love

Led Zeppelin

Intro	E5	E5	E5	E5					
Riff	E5	D5 E5	E5	D5 E5	E5	D5 E5	E5	D5 E5

Chorus	A5	A5	E5	D5 E5	E5	D5 E5			
Solo	E5	E5	E5	E5					

Notes Hard Rock Cornerstone: Built on Jimmy Page's iconic syncopated riff in E Blues / E Pentatonic, featuring the characteristic low E string pick-up slide into the D5-E5 stab.

Riff Mechanics: Palm-mute the repeating open low E string notes, then release the mute sharply on the fast D5 to E5 power chord resolution.

Chorus Accent: The chorus breaks the single-note groove with heavy, open A5 power chord stabs behind Robert Plant's lead vocal line.

Freakout / Solo Section: The middle section breaks into ambient, experimental theremin and tape-echo soundscapes over Bonham's freeform percussion before re-entering on Page's isolated, unaccompanied pickup guitar solo.
