# A Wave of Hope

Phish

- V1 From out of the chaos a wave appears  
In the moonlit confusion  
Irons melted, coming Grace, no longer frozen
- V2 The pillow drowns the moans and shallow breaths  
As dancing silvery rays change, each wave eyes a star  
And the swollen moon hangs over the water
- V3 Reflections guide the way, gold maze mirrors  
As the night wheels turn  
Shipwrecks sway, steel mast crashes, spin green sky

Chorus **Cm** **F**  
I have grown my wings, I am flying  
**Eb** **Bb** **B**  
Ascending now, I am soaring  
**Cm** **F**

V1 When I jumped off, I had a bucket full of thoughts  
When I first jumped off, I held that bucket in my hand  
Ideas that would take me all around the world  
I stood and watched the smoke behind the mountain curl  
It took me a long time to get back on the train

V2 Now I'm gone and I'll never look back again  
I'm gone and I'll never look back at all  
You know I'll never look back again  
I turn my face into the howlin' wind  
It took me a long time to get back on the train

## Phish

V1

Happy happy oh my friend, Blow out candles once again  
Leave the presents all inside, Take my hand and let's take a ride  
Backwards down the number line  
You were eight and I was nine. Do you know what happened then?  
Do you know why we're still friends? Laughing all these many years  
We pushed through hardships tasted tears, Made a promise one to keep  
I can still recite it in my sleep  
Every time a birthday comes, Call your friend and sing a song  
Or whisper it into his ear, Or write it down, just don't miss a year

And then one day you'll find to your intense delight  
That 3 wrong turns can really make a right  
So why not be like me? Be proud of all your crimes  
Cause when i screw up once, I do it 2 more times

# Bouncing Round The Room

Phish

Key: D  
Tempo: 100  
Vocals:

V1      G                      D                      A                      D  
The woman was a dream I had though rather hard to keep  
G                                      D                                      A                                      D  
For when my eyes were watching hers they closed, and I was still asleep.  
A                                                                                      G                                                                                      D  
For when my hand was holding hers she whispered words and I awoke  
A                                                                                      C                                                                                      G                                                                                      D  
And faintly bouncing round the room, the echo of whomever spoke and I awoke  
A                                                                                      C                                                                                      G  
And faintly bouncing round the room, the echo of whomever spoke.

V2      The place I sought was far beneath the surface of the sea,  
My sight was poor but I was sure the sirens sang their songs for me.  
They dance above me as I sink, I see them through a crystal haze  
And hear the sweet sound bouncing round, the never ending coral maze.  
The crystal haze and hear them bouncing round the room, the never ending coral maze

Bridge      C                      G                      A  
Then before and now once more I'm bouncing around the room.

A Part      D                                                                                      A  
That time then and once again, I'm bouncing round the room  
C                                                                                      G  
That time then and once again, I'm bouncing round the room

B Part      D                      A  
And I awoke, faintly bouncing round the room,  
C                                                                                      G  
The echo of whomever spoke.

- V1      **D**  
Joy is over there in her incredible clothes  
         **Gmaj7**  
She has silver silk shimmering down to her toes  
         **D**  
I was doing the best that I can I suppose  
         **Gmaj7**  
But that little girl dancer eventually grows  
         **E      G   A**  
Well she grows
- V2      You can't imagine all the times that I've tried  
To uncover the source of the tears that you cried  
Let's throw it away and just go for a ride  
And you'd say okay but you'd keep it inside  
And I tried, I tried, I tried, I tried
- Chorus   **G                      D                      A                      G**  
We want you to be happy, don't live inside the gloom  
         **G                      D                      A                      G**  
We want you to be happy, come step outside your room  
         **G                      F#m                      A**  
We want you to be happy, cause this is your song too
- V3      I never thought I could have it so good,  
You were the song that my soul understood  
But time is a river that flows through the woods  
And it led us to places we both understood  
Would be gone before too long, would be gone before too long
- V4      When we were young we thought life was a game  
But then somebody leaves you and you're never the same  
All of the places that people belong  
To the puzzle but one of the pieces is gone  
And it's you, it's you, it's you, Joy it's you  
*Chorus*

- V5      **Em                      C                      G**  
In time we'll weather this storm  
         **D                      A**

## Phish

V1 Love is what we are, not something we make  
No one can give it to us, no one can take it away  
We don't fall in it, we don't get high on it  
We all hope to find it, but we don't have to look too far  
'cause love is what we are

Intro **Piano Only:** |: G C | G C :|  
(Guitar enters at V1)

V1  
I'm the man on the mountain, come on up  
I'm the plowman in the valley with a face full of mud  
Yes I am fumbling and I know my car won't start  
Yes I am stumbling and I know I play a bad guitar  
Give me little drink from your loving cup  
Just one drink and I'll fall down .... drunk

V2  
I'm the man who walks the hillside in the sweet summer sun  
I'm the man who brings you roses when you ain't got none  
Well, I can run and jump and fish, but I won't fight  
You if you want to push and pull with me all night  
Give me little drink from your loving cup  
Just one drink and I'll fall down drunk

Bridge  
I feel so humble with you tonight just sitting in front of the fire  
See your face dancing in the flame, feel your mouth kissing me again  
What a beautiful buzz, what a beautiful buzz  
What a beautiful buzz, what a beautiful buzz  
Ohhhhh, what a beautiful buzz, what a beautiful buzz

V3  
Yes, I am nitty gritty and my shirt's all torn  
But I would love to spill the beans with you till dawn  
Give me little drink from your loving cup  
Just one drink and I'll fall down ...drunk

And the fear of tomorrow haunts my mind

I'm searching for a way to make it all rewind

### Phish

V1      G                                  F  
Life in slow motion, feet are in the clay  
          C  
I'm going nowhere, been standing here all day  
G                                  F  
I had a notion, there was something more to do  
          C  
As I watched the water, from the banks of the river it swelled and grew  
          G                                  D  
And I tilt to the left, lean to the right, tilt to the left and lean to the right  
F                                                          C  
Walked on coal and slept on glass, amid swords of sound and daggers of light  
          G                  D  
And my heart is screaming,  
          F                                  C  
cause half of what I say is lies, and it takes so much to keep up this disguise  
G F C  
          It takes so much to keep up this disguise

V2      G                                  D  
I see a doorway in the haze and I'm trying to get to it  
          F                                  C  
The stars are peepholes in a wall but we can walk through it  
          G                                  D  
The memory is still so real, the memory's still so real  
          F                                  C  
I guess it's never really over even when it's over

Chorus      G                                  F  
But I'm vibrating with love and light, pulsating with love and light  
          C  
in a world gone mad, a world gone mad, there must be something more than this  
          G                                  F  
I'm vibrating with love and light, pulsating with love and light  
          C  
in a world gone mad, a world gone mad, there must be something more than this

V3      G                                  D  
The trumpet call is sounding, the trees are bending low  
          F                                  C  
There's a great fire in the distance, there must be something more than this  
          G                                  D  
And our shadows will all be dancing, with red dust on our clothes  
          F                                  C  
And we'll leave by tornado, elbows in the clouds and feet in the sky

Chorus

V4      **G**                      **D**                      **F**                      **C**  
Ohhhh ohhhh ohhhh, woah ohhh ohh ohh ohhh ohhh  
**G**                      **D**                      **F**                      **C**  
Ohhhh ohhhh ohhhh, woah ohhh ohh ohh ohhh ohhh

Phish

Key: G  
Tempo: 112  
Vocals:

V1      G                      C                      G              Bb      C  
Several times unconsciously I've stumbled on the path  
Am              G                      D      Bb C F  
And seen a mountain in the mist  
G                      C                      G      Bb      C  
As rain falls on my shoulders, sun rises in the east  
Am              G                      C      D              G      Bb Am C Eb Bb  
I'm worn and bruised, but I am here at least

V2      G                      C                      G              Bb C  
I guess I'm just an obstacle a thing to overcome  
Am                      G                      D  
If I can sneak around myself again I'll know I've won  
G                                      C                      G              Bb      C  
The moment seems to hang and float before me with no end  
Am                      G                                      C                      D              G      Bb Am C Eb Bb  
til I'm released, awakened beast, I'm on the road again

Chorus      Eb                                      Bb  
But now I'm soaring far too high  
Bbm                                      F  
A fleck of dust up in the sky where  
Dm                                      C  
tiny clouds go sailing by  
Bb                                      C  
Pull me down today

V3      Woven in the fairy tales we fabricate each day  
Are little golden strands of truth that glimmer in the light  
The colorful material you hold a certain way  
Can keep us from the cold and help to get us through the night

Tempo: 100  
Vocals: PJ

Form **Just Am, baby.**

- V1 If you can heal the symptoms but not affect the cause  
It's quite a bit like trying to heal a gunshot wound with gauze  
If you instead attempt to wrest the pistol from the hand  
Then I would not be able to equate my life with sand
- V2 Flowing through the hourglass, pushing through the funnel  
Turn once more while racing all your siblings for the tunnel  
Slide and let the silicone embrace you as you fall  
Then bounce and land you let your brothers crush you to the wall
- V3 I would choose my own religion and worship my own spirit  
But if he ever preached to me I wouldn't want to hear it  
I'd drop him, a forgotten god, languishing in shame  
And then if I hit stormy seas I'd have myself to blame
- V4 4X If you can heal the symptoms but not affect the cause, if you can heal the symptoms...
